

IMMG RAPID WEBSITE DEVELOPMENT SCHEDULE

What Makes Us Different?

Planning – Process – Technology – Results – Measure – Report

Our proven development systems help us maintain development schedules and using our Traffic Conversion Campaign Processes, we are able to drive targeted traffic to your NEW website knowing your site knows how to convert traffic into qualified leads and or clients; otherwise web traffic generation without a defined conversion method is like throwing away money.

Our development process system helps companies like yours target potential clients and or helps reduce operation expenses through on-line automation. In short the website is designed for your business needs and requirements.

Our **IMMG** Rapid 30 Day Development Schedule

Assessment Analysis			Review requirements Flow Chart – 5
Functional Design			Template and integrate design– 5 days
Build	Design Approval		Content and Technology supplied – 15 days
